Hearing Aid Compatibility Status Report (FCC Form 655)

Reporting Period: January 1, 2016 - December 31, 2016

Filing Confirmation Number: 0007624389

Filing Deadline: March 23, 2017

FRN: 0021503834

Filing Date: 01/17/2017 04:55 PM

General Report Information

Type of Company

Service Provider

De Minimis Exception

Did you offer any handsets to subscribers in the United States during the reporting period? Yes

Have you been offering handsets in the United States for at least three years prior to the end of the reporting period? Yes

Date that you began offering handsets in the United States

Are you a small entity? Yes

Were you a small entity at any time during the three years prior to the end of the reporting period?

Date that you ceased to be a small entity?

Company Information

Company Name: Shenandoah Personal Communications, LLC

Brand Names: Sprint
Boost
Virgin Mobile

PO Box: 459

Street Address: 500 Shentel Way

City: Edinburg

State: VA

Zip Code: 22824

Contact Name: Ann Flowers

Contact Phone: (540) 984-5320

Contact Fax: (540) 984-8192

Contact Email: Ann.Flowers@emp.shentel.com

Filing Agent

Is this report being filed by an agent on behalf of a manufacturer or service provider? No

Product Labeling

Do all hearing aid-compatible handsets include labeling? Yes

Explain:

Do all hearing aid-compatible handsets that were tested under ANSI C63.19-2007, and that are capable of voice communication over any air interface or frequency band that does not have hearing aid compatibility technical standards under ANSI C63.19-2007, include the required language disclosing that the handset has not been rated for hearing aid compatibility with respect to such operation?

Yes

Explain:

Do all hearing aid-compatible handsets that were certified only under ANSI C63.19-2007, but that the manufacturer also tested and found not to meet hearing aid compatibility requirements under ANSI C63.19-2011 for one or more operations that are not covered under ANSI C63.19-2007, include language informing users by clear and effective means that the handset does not meet the relevant rating or ratings with respect to such operation(s)?

Yes

Explain:

Do all handsets that are capable of use for Voice over LTE, and that were certified for inductive coupling capability under ANSI C63.19-2011 without being tested for inductive coupling capability over VoLTE, include language disclosing that they were not tested with respect to this operation?

N/A

Explain:

Do all handsets that meet the criteria for an M3 rating by allowing the user to reduce the maximum power for GSM operation in the 1900 MHz band include the required disclosure?

Explain:

Public Website

Does your company maintain a public website describing all hearing aid-compatible models, the ratings of those models, and an explanation of the rating system? Service provider websites must include the levels of functionality that the service provider has defined, the level that each hearing aid-compatible model falls under, and an explanation of how the functionality of the handsets varies at the different levels.

Yes

Website address: https://www.sprint.com/landings/accessibility/hearing_aid.html

Explain:

Consumer Outreach

Describe consumer outreach efforts in the past 12 months: Sprint Corporation posted information regarding hearing aid use with digital wireless phones on its website including a list of HAC compliant phones and their respective ratings. Sprint also provides information regarding HAC within its device user guides. Sprint engages regularly with a number of consumer groups including, but not limited to, National Association of the Deaf, Hearing Loss Association of America, Telecommunications for the Deaf, Inc., Alexander Graham Bell Association, Association for Late-Deafened Adults, and Gallaudet University and through its membership in ATIS, CTIA, and CCA. Sprint also participates in many conventions, conferences, industry meetings, and other events that facilitate interaction with consumers such as C-SUN and M-Enabling.

Methodology for Functionality Levels

For phones offered by the nTelos Subsidiaries - Handsets with Low functionality are offered at a very affordable price point. These handsets have basic call and text message functionality. Mid-level handsets come with features for personalization such as ringtones, picture messages, and mobile web. High level handsets allow access to faster data speeds and additional features including video capture and music. Smart phones provide access to faster data speeds for internet browsing, email, full QWERTY keyboard, and advanced operating systems with the capability to install and use applications.

For phones offered under Sprint - Each handset is evaluated by a Sprint product and technology committee who selects the appropriate functionality level based on handset capabilities from the simplest basic functionality to high-end smartphone devices with complex operating systems. The functionality levels defined for 2016 are: Advanced, Intermediate, and Basic. Basic or Feature phones support text messaging where alphanumeric text entry may require triple tapping. Simple web-browsing capability and other data services are typically supported. Intermediate handsets are voice capable messaging phones such as QWERTY keyboards, enhanced browsers such as those that support HTML and High Performance Push-to-Talk with high data speeds. Advanced handsets have complex smartphone operating systems such as Android and Apple iOS.

Report Remarks

Shentel acquired NTELOS Holdings Corp. and its subsidiaries in May 2016. Following the merger, nTelos stores were re-branded as Sprint and began to sell Sprint products and services. Subsidiaries of NTELOS Holdings Corp. that operated under the brand names nTelos, and Frawg, and previously filed FCC Form 655 include: Virginia RSA 6, LLC, Virginia PCS Alliance, L.C., and West Virginia PCS Alliance, L.C. (together, the nTelos Subsidiaries). Data for the handsets that were sold by the nTelos Subsidiaries from the beginning of the reporting period through the merger closing date have been included in this combined filing.

You have reported the following handset model summary information.
Total number of handsets offered: 67

Air Interface	Fully Hearing Aid Compatible		Acoustic Coupling Compatible Only		Non-Compliant Handsets		Total by Air Interface
	Number	Percent	Number	Percent	Number	Percent	
CDMA	67	100%					67
